InHouse Physicians Launches Redesigned Website

St. Charles, IL— May 2, 2011— InHouse Physicians, a global provider of innovative health management solutions that assist corporations in reducing health care costs through improved employee health, is pleased to announce their launch of a newly designed website.

The new website highlights each of InHouse Physicians' services and allows employees to log into their personal wellness web portal, connect with their health coach, sign up for a variety of wellness workshops, and schedule their corporate flu vaccination or health screening. The revamped website also provides clients the opportunity to read through IHP case studies, featured monthly articles, and press releases.

InHouse Physicians provides health assessments, customized wellness portals, wellness workshops, workplace health centers, targeted wellness, health screenings, flu vaccinations, health coaching, medical support for meetings and pandemic preparedness. The company is headquartered in St. Charles, Illinois and has medical personnel in over 70 countries.

To learn more about InHouse Physicians and their corporate healthcare services, please visit www.InHousePhysicians.com or call 800.356.3627.

Founded in 1989, InHouse Physicians is a leading provider of employee health and wellness services for U.S. corporations. InHouse Physicians brings decades of experience through our highly qualified network of hospitals, clinics, physicians, nurses, and paramedics worldwide. We understand the unique, intricate needs of our clients, and respond with state-of-the-art customized solutions and superior customer service that guarantees global presence with personal care.
